

HLTAID011 Provide First Aid

COURSE OVERVIEW

- This unit describes the skills and knowledge required to provide a first aid response to a casualty. The unit applies to all workers who may be required to provide a first aid response in a range of situations, including community and workplace settings. This course was also previously known as Apply First Aid, Senior First Aid, or Level 2.
- The course is fully accredited nationally recognised training.
- This qualification is considered the industry standard for a range of workplace roles and employment categories. It is also required if you are considering entry into the Police Force, Corrective Services, Ambulance Service and/or to study Nursing. It is the minimum qualification for workplace First Aid Officers if you are being appointed to that role.

COURSE ENTRY REQUIREMENTS

- There are no formal entry requirements for this course, however it is expected that students have good communication skills, the ability to follow instruction and deal with stressful, confronting situations.
- You may be obtaining First Aid qualifications as an accompanying unit to broader study in a specific field. Be sure you check to make sure if any state or federal licensing requirements apply to your study field. For example studying to become a Security Officer requires you to have First Aid, but you also require a National Police Check clearance.
- First Aid is about dealing with real life situations that may involve you and close family or friends. The training will expose you to conditions and scenarios that could be confronting to some. So, we ask that you come prepared to face situations which can be challenging for some.

DURATION & STRUCTURE

The course is typically delivered over 1 day in a face to face classroom based environment, with trainer led scenarios and practical demonstration.

Oz Care Training run a 1-day mixed mode program, which is a combination of theory workbook completed beforehand and a single day of practical application and assessment.

We run courses regularly at our Fairfield campus, with training taking place between 9am and 4pm.

Students will be required to complete the theory workbook and attain a competent mark before they can progress to the practical session.

POTENTIAL JOB ROLES

Potential job roles on completion of this program includes:

- o Workplace First Aid Officer
- o WHS Officer
- o Pre-requisite for Australian Federal Police Force
- o Pre-requisite for Australian Protective Services
- o Pre-requisite for Study toward Nursing qualifications
